

Francis Hui

francis.huikh@gmail.com | +1 (437) 979-6709 | <https://francishui.com>

North York, Ontario

PROFESSIONAL SUMMARY

- 5 years of experience in software development, with solid knowledge in **data structures** and **design pattern**
- 3 years of experience on project deployment, handling Jenkins Pipeline deployment, Dynatrace alerts for various endpoint in RedHat OCP and managing cyberbanking microservices from initiation to closure
- 2+ years of experience working in the public banking and **financial services industries** under Hong Kong Monetary Authority standard

WORK EXPERIENCE

Analyst Programmer

The Bank of East Asia Limited

Apr 2022 – Mar 2024

Hong Kong SAR

- Conducted in the development of Personal Banking System using **C# (.NET 6.0)** and **Java (JDK 1.8)**
- Engaged in the Cyberbanking System Development, including projects for **OpenAPI**, **BAU** and batch Jobs
- Participated in complete **SDLC process** and **DevOps cycle** including requirement gathering, system design, code review, system migration and health check after deployment
- Reviewed and amended the system design to align on the Bank's system architecture standard
- Provided system support by monitoring application performance with **Dynatrace** and examined data and logs with **Kibana** to resolve production incidents and user inquiries, led to 20% reduction of system vulnerability and having 95%+ user satisfaction
- Responsible for 50+ **microservices** deployment to **Red Hat OCP** and **AWS** with **Jenkins Pipeline**

Programmer

Transaction Technologies Ltd.

Jan 2021 – Mar 2022

Hong Kong SAR

- Developed and maintained **C++** for high-frequency Front Office (FO) trading system
- Supported in Development, SIT, UAT, and Production environment, provided L1 – L2 support during deployment period in client's sites
- Provided R&D and function revamp to achieve better **time complexity**, reduction of **trading latency** and enhance system performance resulting in 10% increase of data process speed
- Executed unit test cases with **GTest** and **Postman** for accuracy of code and logging with **Log4cpp**

Internship Engineer

MaCaPS International Ltd

Jun 2019 – Aug 2019

Hong Kong SAR

- Worked on **RFID** and **Embedded System** development with **C++** and **C#**
- Participated in Finger Vein Biometric Technology in Time Attendance System Project, with 75% reduction of the data size and 99% recognition accuracy rate

EDUCATION

Bachelor of Engineering in Computer and Data Engineering

City University of Hong Kong

Sep 2018 – Dec 2020

Hong Kong SAR

- First Class Honors Graduated with **Final GPA 3.69**
- Awarded **Dean's List** in Semester A and B in 2019/20

- Distinction Graduated with **Final GPA 3.52**
- Awarded **Principal's List** in Semester B in 2017/18

PROJECTS

Starlight Chinese Opera Website (<https://starlightopera.com>) 2024

Technologies/Skills: React JS, Spring Boot, MySQL, Material UI, Figma ON, Canada

- Engaged in the full lifecycle of the website revamp project, including requirements gathering, **UX/UI Design**, development, testing and production deployment
- Participated as a full stack developer in **frontend/backend** implementation and **CMS** development
- Collaborated with directors to ensure SEO best practice, resulting in 30% increase in conversion rates from organic search traffic

Develop an efficient path finding algorithm for very large graphs (FYP) Dec 2020

Technologies/Skills: C++ C++/CLI, C#, OOP, Graph, DP

- Developed a sequence-to-acyclic-graph searching algorithm with time complexity $O((|V|+|M|)|E|)$
- Created a window GUI for data input, visualization of the algorithm and explanation of the path

Crypto Currency Backend Server Dec 2019

Technologies/Skills: Python, Flask, OOP, JSON, Restful API, SHA256, RSA

- Simulated the Crypto activities among blockchain including trading, mining, and rewarding
- Developed **Restful APIs** for making transaction, viewing transaction history and displaying blocks detail

SKILLS

Programming Language

C#, Java, C++, JavaScript, Python, C, Assembly

Backend

Spring Boot, Java Server Page (JSP), GTest, Junit, Flask, jQuery, IBM MQ, Maven, Restful APIs

Frontend

React JS, Material UI, HTML, CSS, JavaScript, Typescript

Database

MS SQL, Oracle Database, mySQL, IBMDB2,

Source Control

Git, GitHub, GitLab, Git Extension, Source tree

Application Server

Red Hat OpenShift, Amazon Web Services (AWS), IBM WebSphere Application Server (WAS), Apache Tomcat

CI/CD

Jenkins

Testing kits

SoapUI, Postman

Application Monitoring

Dynatrace, Kibana

Other Tools

Jira, Figma, MS Office

Typing Speed (WPM)

English (68), Chinese (53)

Language

English, Mandarin, Cantonese
