

Francis Hui

francis.huikh@gmail.com | +1 (437) 979-6709 | <https://francishui.com>

Toronto, Ontario

PROFESSIONAL SUMMARY

- 5 years of experience in software development, with solid knowledge in **data structures** and **design patterns**
- 3 years of experience on project deployment, handling Jenkins Pipeline deployment, Dynatrace alerts for various endpoints in RedHat OCP and managing cyberbanking microservices from initiation to closure
- 2+ years of experience working in the public banking and **financial services industries** under the Hong Kong Monetary Authority standard

WORK EXPERIENCE

Freelance Developer

Jan 2025 – Present

ExportAs Labs

- Participated as a full-stack developer of the **frontend/backend** implementation of web application for construction companies to manage workers, projects and work permits
- Made use of Amazon Rekognition for optical character recognition (OCR) on worker ID cards and Object Recognition on Images of the construction site

Grocery Associate (Dairy & Frozen)

Sep 2024 - Present

T&T Supermarket (Warden & Steeles Store)

Hong Kong SAR

Analyst Programmer

Apr 2022 – Mar 2024

The Bank of East Asia Limited

Hong Kong SAR

- Conducted the development of the Personal Banking System using **Java**
- Engaged in the Cyberbanking System Development, including projects for **OpenAPI**, **BAU** and batch Jobs
- Participated in the complete **SDLC process** and **DevOps cycle** including requirement gathering, system design, code review, system migration and health check after deployment
- Reviewed and amended the system design to align with the Bank's system architecture standard
- Provided system support by monitoring application performance with **Dynatrace** and examined data and logs with **Kibana** to resolve production incidents and user inquiries, led to 20% reduction of system vulnerability and had 95%+ user satisfaction
- Responsible for 50+ **microservices** deployment to **Red Hat OCP** and **AWS** with **Jenkins Pipeline**

Programmer

Jan 2021 – Mar 2022

Transaction Technologies Ltd.

Hong Kong SAR

- Developed and maintained a high-frequency Front Office (FO) trading system in **Java**
- Supported in Development, SIT, UAT, and Production environments, provided L1 – L2 support during the deployment period in the client's sites
- Provided R&D and function revamp to achieve better **time complexity**, reduction of **trading latency** and enhance system performance resulting in 10% increase in data processing speed
- Executed unit test cases with **Junit** and **Postman** for the accuracy of code and logging with **Log4j**

Internship Engineer

Jun 2019 – Aug 2019

MaCaPS International Ltd

Hong Kong SAR

- Worked on **RFID** and **Embedded System** development with **C++** and **C#**
- Participated in Finger Vein Biometric Technology in Time Attendance System Project, with 75% reduction of the data size and 99% recognition accuracy rate

EDUCATION

Bachelor of Engineering in Computer and Data Engineering

City University of Hong Kong

- First Class Honours Graduated with **Final GPA 3.69**
- Awarded **Dean's List** in Semester A and B in 2019/20

Sep 2018 – Dec 2020

Hong Kong SAR

Associate Degree of Science in Network and Systems Administration

The Community College of City University of Hong Kong

- Distinction Graduated with **Final GPA 3.52**
- Awarded **Principal's List** in Semester B in 2017/18

Sep 2016 – Jul 2018

Hong Kong SAR

PROJECTS

Starlight Chinese Opera Website (<https://starlightopera.com>)

Jun 2024 - Present

Techs/Skills: React JS, Spring boot, MySQL, Material UI, Figma

ON, Canada

- Engaged in the full lifecycle of the website revamp project, including requirements gathering, **UX/UI Design**, development, testing and production deployment
- Participated as a full stack developer in **frontend/backend** implementation and **CMS** development
- Collaborated with directors to ensure SEO best practice, resulting in 30% increase in conversion rates from organic search traffic

Develop an efficient path finding algorithm for very large graphs (FYP)

Dec 2020

Techs/Skills: C++ C++/CLI, C#, OOP, Graph, DP

- Developed a sequence-to-acyclic-graph searching algorithm with time complexity $O((|V|+|M|)|E|)$
- Created a window GUI for data input, visualization of the algorithm and explanation of the path

Crypto Currency Backend Server

Dec 2019

Techs/Skills: Python, Flask, OOP, JSON, Restful API, SHA256, RSA

- Simulated the Crypto activities among blockchain including trading, mining, and rewarding
- Developed **RESTful APIs** for making transactions, viewing transaction history and displaying blocks detail

SKILLS

Programming Language

Java, C++, C#, Python, JavaScript, C

Backend

Spring Boot, Java Server Page (JSP), GTest, Junit, Flask, jQuery, IBM MQ, Maven, Restful APIs

Frontend

React JS, Next JS, TailwindCSS, Material UI, HTML, CSS, JavaScript, Typescript

Database

Oracle Database, mySQL, MS SQL, IBMDB2

Source Control

Git, GitHub, GitLab, Git Extension, Source tree

Application Server

Red Hat OpenShift, Amazon Web Services (AWS), IBM WebSphere Application Server (WAS), Apache Tomcat

CI/CD

Jenkins

Testing kits

SoapUI, Postman

Application Monitoring

Dynatrace, Kibana

Other Tools

Jira, Figma, MS Office

Typing Speed (WPM)

English (68), Chinese (53)

Language

English, Mandarin, Cantonese
